

Hang Kits

Ultra-Aire hang kits can be used to suspend any horizontal Ultra-Aire dehumidifier in a crawl space, basement, attic or mechanical closet. Hanging an Ultra-Aire dehumidifier provides the following features and benefits:

- ▶ Protection in the event of flooding in a crawl space or basement.
- ▶ Ability to free up floor space and allow for better condensate drainage / removal.
- ▶ Reduction in vibration that may be associated with attic installations.
- ▶ Quick and easy installation that can be done with only one person.
- ▶ Adjustable, heavy duty ratchet straps that hold up to 150 pounds each.

Small Hang Kit

- ▶ **Part Number 4036695**
 - ▶ **Dehumidifiers:**
 - + Ultra-Aire 70H
 - + Ultra-Aire 98H
 - + Ultra-Aire 120H
 - ▶ **Parts Included:**
